Installing BR AvaTax Connector

Requirements

The BrilliantRetail AvaTax Connector integrates the Avalara AvaTax solution directly into your BrilliantRetail store for advanced tax rate lookups and tax reporting capabilities. Avalara is a third party solution and requires an Avalara account. More information on the product may be found at <http://www.avalara.com/products/avatax>

ExpressionEngine Requirements

The BrilliantRetail AvaTax Connector requires ExpressionEngine version 2.5.5+. The version you are running is located in your ExpressionEngine control panel in the footer section as shown above.

The latest release of ExpressionEngine can be downloaded from your account at <http://ellislab.com/expressionengine>

BrilliantRetail Requirements

The screenshot shows the BrilliantRetail dashboard interface. At the top, there is a navigation menu with links for Store, Content, Design, Add-Ons, Members, Admin, Tools, Help, and a + Add button. Below the navigation is a breadcrumb trail: EE 2.5.5 > CP Home > Modules > Dashboard. The main dashboard area features a bar chart with a tooltip that says "No data available". Below the chart, the sales for today are displayed as \$0.00. To the left of the chart is a table with sales data for various periods, and to the right is a table of recent orders.

Sales Period	Sales Amount
Sales For Today	\$0.00
Sales For This Week	\$2078.34
Sales For This Month	\$2078.34
Sales For Quarter	\$2078.34
Sales For This Year	\$2078.34

Order ID	Customer Name	Amount
1011	David Dexter	\$349.00
1009	David Dexter	\$38.05
1008	David Dexter	\$38.05
1007	David Dexter	\$349.00
1006	David Dexter	\$38.05
1005	David Dexter	\$400.00

brilliantretail 1.3.1.0

The BR AvaTax Connector requires BrilliantRetail version 1.3.1+. The version of BrilliantRetail you are running is located in the footer of the Store Dashboard of the site as shown above.

The latest release of BrilliantRetail can be downloaded from your account at <http://www.brilliantretail.com/>

Installation & Upgrading

The free BR Avalara Connector can be downloaded from our website [INSERT LINK TO CONNETOR HERE].

Installation

1. Download the extension from our website.
2. Unzip the downloaded file.
3. Inside the unzipped folder navigate to the system/expressionengine/third_party directory.
4. Upload the **br_avatax_connector** directory to your server's system/expressionengine/third_party folder.

** **Please Note:** The paths mentioned above are system defaults. Depending on your ExpressionEngine configuration the third_party directory may be moved to a new location.*

Upgrading

1. Download the latest version of the add-on from the link above.
2. Replace the br_avatax_connector directory as outlined above with the latest version from the unzipped file.
3. Check the release notes for any additional requirements.

Setup Extension

Configuration

Enabling the extension

EE 2.5.5 > CP Home > Add-ons > Extensions

Disable Extensions?

Extension Name	Settings	Documentation	Version	Status
BR-AvaTax Connector	Settings	Documentation	1.0	Disabled (Enable?)
Brilliant Retail	–	Documentation	1.3.0.5	Enabled (Disable?)
Rich Text Editor	–	Documentation	1.0	Enabled (Disable?)
SafeCracker	Settings	Documentation	2.1	Enabled (Disable?)
Wiki	–	Documentation	2.3	Disabled (Enable?)

1. Navigate to the **Add-ons > Extensions** section of the control panel
2. Click the **"Enabled"** link under the status section

Settings

EE 2.5.5 > CP Home > Add-ons > Extensions

Disable Extensions?

Extension Name	Settings	Documentation	Version	Status
BR-AvaTax Connector	Settings	Documentation	1.0	Enabled (Disable?)
Brilliant Retail	–	Documentation	1.3.0.5	Enabled (Disable?)
Rich Text Editor	–	Documentation	1.0	Enabled (Disable?)
SafeCracker	Settings	Documentation	2.1	Enabled (Disable?)
Wiki	–	Documentation	2.3	Disabled (Enable?)

Once the extension is enabled the **Settings** link becomes active. Click on the link to reveal the add-on configuration form.
